DETAILED ACTION

Specification

The substitute specification filed 11/1/02 has not been entered because it does not conform to 37 CFR 1.125(b) because: the substitute specification fails to provide a statement it includes no new matter, and it fails to comply to 1.2122(b)(1), as indicated by the following recitation from the MPEP:

§ 1.125 Substitute specification.

(b) A substitute specification, excluding the claims, may be filed at any point up to payment of the issue fee if it is accompanied by:

(1) A statement that the substitute specification includes no new matter; and

(2) A marked up version of the substitute specification showing all the changes (including the matter being added to and the matter being deleted from) to the specification of record. Numbering the paragraphs of the specification of record is not considered a change that must be shown pursuant to this paragraph.

(c) A substitute specification submitted under this section must be submitted in clean form without markings as to amended material. The paragraphs of any substitute specification, other than the claims, should be individually numbered in Arabic numerals so that any amendment to the specification may be made by replacement paragraph in accordance with § 1.121(b)(1).

Therefore, the specification is still objected, as set forth in the previous action (paper #2), because the specification contains numerous description of the invention in the very beginning

Art Unit 2873

(perceived summary of invention) which should be in the detailed description section of the specification, the heading "we claim or I claim" is missing from the specification, and general headings throughout the specification is needed as described above.

Appropriate correction is required.

The abstract of the disclosure also still objected to because it should not exceed 150 words. Correction is required. See MPEP § 608.01(b).

Drawings

The corrected or substitute drawings were received on 11/1/02. These drawings are acceptable.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-8,10-28,30-37 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 1, the phrase "**in particular fluorescence**" renders the claim indefinite because it is unclear whether the limitation(s) following the phrase are part of the claimed invention. See MPEP § 2173.05(d).

Claims 2-8,10-28,30-37 inherent their indefiniteness from claim 1 for which they depend.

Allowable Subject Matter

Claims 1-8,10-28,30-37 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action

The following is a statement of reasons for the indication of allowable subject matter: Regarding claim 1, prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitations of the dependent claims, in such manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims, which include a light source wherein at least one intensity of one light source is controllable as claimed.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
